PROFESSIONAL SUMMARY

B.E. Computer Science and Engineering graduate with a solid academic background and practical learning experience through projects, internships, workshops, and certifications. Demonstrates strong analytical skills, adaptability, and a continuous learning mindset. Prepared to contribute effectively in a dynamic and growth-oriented professional environment.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, HTML, CSS
- **Frontend:** React.js
- **Backend:** Spring Boot, Node.js, Express.js
- **Database:** MySQL, MongoDB
- **Blockchain:** Solidity, Web3.js, Ethereum
- **Tools:** Git, GitHub

INTERNSHIP EXPERIENCE

- **Java Full Stack Intern** | i5 Technology
- **Data Analytics Intern** | Cognifyz (Remote)
- **Blockchain Intern** | Technohacks (Remote)

CERTIFICATIONS

- **Fundamentals of Blockchain** – GUVI
- **Course in Blockchain** – LIVEWIRE
- **Placement Preparation Program**
(Indian Institute of Placements)
- **Data Analysis Fundamentals**
(Analyttica)

WORKSHOP ATTENDED

- **Cloud Computing Industrial Visit**
(Cloudlogic Technologies)
- **Power BI Basics (4-Day Course)**
(Newton School)

ACHIEVEMENTS

- 1st Place – National Level Technical Symposium
- 3rd Place – TANSOM Hackathon
- Presented 5+ Technical Papers
- NSS Volunteer | Regular Blood Donor
- Participated in IPR Patent Drafting
- Participated in Google Student Ambassador

EDUCATION

B.E. Computer Science and Engineering

A.V.C. College of Engineering, Mayiladuthurai

2022 – 2026 | CGPA: 7.21/10

HSC (Basic Mechanical Engineering)

S.M.H. Higher Secondary School, Sirkazhi

2020 – 2022 | Percentage: 73%

Secondary School Leaving Certificate (SSLC)

S.M.H. Higher Secondary School, Sirkazhi

2019 – 2020 | Percentage: 51.6%

PROJECT EXPERIENCE

- **Movie Ticket Admin Portal** | Spring Boot, Java, MySQL
(Developed a portal for movie and theater management with secure user access.)
- **SychDesk – Collaborative Workspace** | MERN, Socket.io
(Built a real-time collaboration platform with messaging and file sharing.)
- **Hostel Management System**
Web Application | WhatsApp API
(Developed a hostel management system with attendance tracking and automated notifications.)
- **Large Vehicle Maintenance using AR/VR and IoT**
AR.js | Three.js | ESP32
(Built an AR/VR solution with IoT integration for vehicle maintenance support.)
- **SecureLandX – Decentralized Land Registry**
React | Solidity | Ethereum
(Developed a blockchain-based platform for secure land record management.)
